

# Full-Stack Software Engineer

## FULL-STACK WEB ENGINEER & SOLUTIONS ARCHITECT

Delhi NCR / Remote    abhishekanandsupreme@gmail.com

— linkedin.com/in/abhishek-anand-supreme

### EXPERTISE

Full-Stack Web Development

HTML5, CSS3, & Tailwind CSS

JavaScript & React.js

TypeScript & Next.js

Python & Odoo Customization

Java & Spring Boot Core

PostgreSQL & Database Design

REST API & System Integration

Git & CI/CD Pipelines

Responsive UI/UX Design

System Integration & APIs

Git & Deployment

### EDUCATION

#### Bachelor of Technology (B.Tech)

Indian Institute of Technology (IIT  
ISM) Dhanbad

### PROFESSIONAL SUMMARY

A highly proficient Full-Stack Software Engineer specialized in building highly responsive frontend interfaces, robust REST APIs, and scalable backend integrations. Deeply experienced in modern web frameworks (React, JavaScript/TypeScript, HTML5/CSS3, Tailwind CSS) and robust backend environments (Python, Java, Spring Boot, PostgreSQL). Passionate about writing clean, maintainable, and high-performance code that drives optimal user experience.

### PROFESSIONAL EXPERIENCE

#### Lead Web Developer & Technical Consultant

June 2025 -  
Present

#### Freelance / Self-Employed

- Designed and launched multiple custom Odoo 19 web-portals, incorporating custom responsive frontend views using HTML5, CSS3, and JavaScript.
- Engineered multi-channel automated API data streams in Python, parsing external webhook payloads into core database structures.
- Developed reusable web components using React.js and Tailwind CSS, increasing development delivery speed by 30%.
- Designed high-fidelity telemetry dashboards and analytics reporting systems for key business stakeholders.

**Java & Mobile Software Engineer** June 2024 - May 2025**Enterprise Software Solutions**

- Developed reliable enterprise REST architectures utilizing Java 17, Spring Boot, and PostgreSQL.
- Built native Android applications incorporating local cache layers (SQLite/Room) and REST API consumption.
- Wrote comprehensive API specifications and technical integration guidelines, collaborating with cross-functional teams to integrate services.

**KEY PROJECTS**

---

**Dynamic Web Solutions Portfolio**

An array of full-stack web development and automation systems built with React.js, Tailwind CSS, Odoo, and Python, featuring elegant interfaces and optimized rendering.

**High-Performance API Gateway Hub**

A secure and robust API integration gateway detailed with technical specs and interactive mock request simulators.
